Howdy, HCDE alumni! I hope this newsletter finds you well. The academic year is off to a great start here.

General Design: A Designing Space
This year we've welcomed yet another cohort of exceptionally high achieving students. Throughout the year we will be spotlighting our student-based summer research projects, our faculty, and the demand for our cutting edge academic programs.

This is my first year as Chair of HCDE. I feel fortunate to join a department with a rich history and tradition. I am excited about the way HCDE provides our students engaging classroom experiences as well as opportunities for growth outside of the classroom. For example, this month we launched the fifth annual Shobe Prize. This startup competition challenges students to research and pitch their innovative ideas. Winners are then provided expert support, space, and social connections with professionals to develop their work. Matt Shobe, an HCDE alumnus, provided funding and the social capital to develop these young entrepreneurs.

HCDE alumni can get involved with the department, the faculty, and our exceptional students in many ways. We have several events that might interest you, including an on-going series of weekly free lectures, the HCDE Career Fair, and the Puget Sound World Usability Day. I hope to meet you at one of these events. Please feel free to stop by and say hi.

David W. McDonald
Associate Professor, HCDE Chair

WORLD USABILITY DAY
NOVEMBER 13, NOON–5 P.M.
HUSKY UNION BUILDING, UW SEATTLE
Co-hosted by HCDE and Microsoft, World Usability Day is an international event that promotes the values of usability, usability engineering, user-centered design, and universal accessibility.

Puget Sound World Usability Day features more than 20 leading UX professionals from the greater Puget Sound region, as well recognized national and international guest speakers who will share valuable insights and advice related to the theme of engagement.

CURRENT ISSUES IN HCDE
WEDNESDAYS, 4:30–5:20 P.M.
241 MARY GATES HALL, UW SEATTLE
Join us every Wednesday this quarter for a deep dive into the latest HCDE research. So far we have heard from several HCDE professors, including Charlotte Lee about a new framework to redefine the field of computer supported cooperative work, Kate Starbird on her latest research studying the spread of online rumors after disaster events, and Cecilia Aragon on the importance of using a human centered approach when working in data science. Videos from all past talks are available online.

This Wednesday, HCDE Professor Mark Haselkorn will discuss the necessary challenges associated with designing a system of systems with a vast and diverse array of stakeholders. He will provide examples from his ongoing Maritime Operations Information Sharing Analysis (MOISA) project. All talks are free and open to members of the HCDE community.

IN THE NEWS...

ANNOUNCING COSSAR
The new Center for Collaborative Systems for Security, Safety, and Regional Resilience (CoSSaR), directed by Professor Mark Haselkorn, is designed to align strategies, processes and investments in systems for security, safety, and resilience.

BETH KOLKO ON KUOW
HCDE Professor Beth Kolko was a recent judge at MIT Media Lab's "Make the Breast Pump Not Suck!" hackathon and talked with KUOW Public Radio about the experience.

HCDE MS STUDENT FORMS #HACKTHECD
New HCDE MS student David Harris formed a hackathon to teach tech and entrepreneurial skills to minority groups in Seattle's Central District.

CURRENT ISSUES IN HCDE
WEDNESDAYS, 4:30–5:20 P.M.
241 MARY GATES HALL, UW SEATTLE
Angela Bloomberg is your go-to expert for all things social! Angela is the Executive Director of the Center for Social Media at the Annenberg School of Communication at the University of Pennsylvania. In her talk, she will discuss the current state of social media, and what it means for the future. She will also share her insights on the importance of understanding the role of social media in our lives. This talk is open to anyone interested in learning more about the impact of social media in our society.

IF YOU’RE INTERESTED IN PASSING THIS EMAIL ON TO COLLEAGUES OR FRIENDS, PLEASE USE THE FRIENDS OF THE DEPARTMENT PAGE.
