and Munson helped lead a team proposal to win a HCDE main office will experiment with Spring Quarter the introduce undergraduate women to potential careers in UX design, alumni, and catch up with faculty. We will conclude the academic organizations that sponsored capstone projects, meet HCDE Select submissions may be featured in HCDE's annual Sharehousing. Up to five tagline authors will be awarded a $50 Amazon gift card for their winning entry. Thank you to all those who entered! We will announce the winners in next week’s newsletter.

Partners; HCDE & TC alumni; prospective students; and friends of Engineering as we open our doors and celebrate another year of success.

Please join the department of Human Centered Design & Engineering for our Open House. It’s a great opportunity to meet our students, alumni, faculty, and staff, learn about our majors and program offerings. Come check out the HCDE Design Lab, meet our students, and have a tour of our facilities. We will have free popcorn and drinks and a special prize for the first 25 people to arrive.

HCDE Open House
4-7 p.m.
HCDE Design Lab, 233 Sieg Hall

Message from the Chair

HCDE Assistant Professor and Chair

Near the end of the quarter, on June 1, HCDE hosts our biggest events of the year, the Design & Engineering Discovery Days. The free two-day event will feature talks, workshops, and hands-on activities for all ages. The main goal of these events is to encourage students to consider careers in UX and to introduce undergraduate women to potential careers in UX design.

Students are running the first Design & Engineering discovery days. The event will feature talks, workshops, and hands-on activities for all ages. The main goal of these events is to encourage students to consider careers in UX and to introduce undergraduate women to potential careers in UX design.
