HCDE NEWS

Message from the Chair

Dear HCDE Community,

I am pleased to send you the Spring 2016 edition of our quarterly newsletter, where we highlight upcoming events and opportunities, and recognize recent achievements of our students and faculty. **Read more on the HCDE Blog »**

UPCOMING EVENTS

HCDE Open House
May 31, 2016, 4–7 P.M.
HUB Ballroom

Save to your Calendar

Students, friends, families, prospective students, alumni, faculty, and staff are all invited to the department's biggest event of the year—the HCDE Open House. Find student capstone presentations, PhD student research talks, prizes, food, and fun. Invite your friends and join us!

NEW WEBSITE FEATURES FOR STUDENTS

HCDE Student Directory
All HCDE bachelor's, master's, and PhD students are encouraged to add a profile to the new HCDE Student Directory. Tell us about your research interests, why you chose HCDE, and add a link to your website or resume. **Add your profile »**

Submit Your Photos & Stories
We want to tell your story! Use HCDE's online form to submit photos and story ideas illustrating your experience in the department. Submissions may be used on the HCDE website, social media, and the department's annual magazine, *Designing Up*. **Learn more »**

Equipment Reservations
We have updated HCDE's equipment check-out process—you can now view available equipment in real-time, and add your reservation directly to our **reservation calendar »**

Subscribe to the HCDE Blog
Subscribe to the HCDE Blog and be the first to hear about the latest student opportunities and events. Find the sign-up form in the sidebar of the new **HCDE Blog »**

NEWS HIGHLIGHTS FROM HCDE

Impact of "Official" Accounts on Rumor Correction
The latest research from HCDE Professor Kate Starbird, undergraduate student Yuwei Ding, and their collaborators in the department of Communication and the iSchool's DataLab, looks at how "official" sources of information impact both the spread and correction of rumors online.

Parents' and Children's Perspectives on Family Technology Rules
A study from HCDE PhD student Alexis Hiniker and Professor Julie Kientz is one of the first of its kind to ask children what technology rules they wish their parents would follow. This work was recently featured in multiple news outlets, including the New York Times, Time Magazine, and Good Morning America.

Doctor, Patient Expectations on Fitness and Lifestyle Tracking
A multidisciplinary team of UW researchers, including HCDE PhD students Christina Chung and Kristin Dew, and Professors Julie Kientz and Sean Munson, is studying how to make self-tracked health data more clinically useful and encourage better patient-provider collaboration.
